SPEAKERS PROFILE

Day One – 10th February, 2026

10:00 – 11:15 hrs	Inaugural Session
-------------------	-------------------

Dr. TRB Rajaa, Hon'ble Industry Minister, Govt. of Tamil Nadu

May 2023 – present

Member of Legislative Assembly, Mannargudi, Tamil Nadu

2011 – present

Secretary, IT Wing, Dravida Munnetra Kazhagam

2022 – present

PhD, CounsDr. T.R.B. Rajaa is a politician and people's representative with a career spanning three decades across several institutions and elected offices.

He is a record three-time Member of Legislative Assembly from the Mannargudi constituency in Tamil Nadu, India, and is an office-bearer in the Dravida Munnetra Kazhagam (DMK).

Before starting his political career, he was an educationist and social entrepreneur, with experience in several sectors like chemicals, fisheries, media and communications. He has also served on the boards of educational institutions.

He has a deep interest in sports and emerging technologies.

Shri Sushil Pal, Joint Secretary, Ministry of Electronics and Information Technology (MeitY), Government of India

With over 24 years of extensive experience as a civil servant in various ministries of the Government of India (GOI), Shri Sushil Pal currently serves as the Joint Secretary in the Ministry of Electronics and Information Technology. He is primarily responsible for execution of various Electronics Manufacturing Schemes, e.g. Semiconductors, PLIs (Mobile & IT Hardware), SPECS (Components), Investment Promotion activities etc.

Besides, he is also the Chief Executive Officer (CEO) of India Semiconductor Mission (ISM) and in-Charge of International Co-operation Division, Internet Governance Division. Shri Pal is also a Focal Point and Co-chair for the G20 Digital Economy Working Group and has played a pivotal role in leading the G20 Digital Public Infrastructure (DPI) initiatives & FTA negotiations on Digital Trade.

He has extensive experience working on programs and finance verticals of various sectors such as Ministry of Home Affairs, Economic sectors (Department of Fertilizers), Social sectors (Health) as well as Revenue Department of Government of India. He has also worked in multi-cultural environment and developing countries, particularly in Timor-Leste, having worked there as Treasury Advisor in Government of Timor-Leste. He has conceived and successfully implemented the computerization of receipt accounts of Direct Taxes across the country by leveraging the banking interface. As a National level Consultant for WHO and DFID, he provided technical assistance for formulation and implementation of financial and accounting guidelines for National Rural Health Mission (NRHM), a flagship scheme of Government of India.

He holds a degree in MBA (Finance) from Faculty of Management Studies (FMS), Delhi University and a Postgraduate in Operational Research from Delhi University. He is also a Certified Internal System Auditor (CISA) qualified as awarded by ISACA, USA.

Thiru. V. Arun Roy, IAS, Secretary, Industries, Govt. of Tamil Nadu

Thiru. V. Arun Roy, IAS., is currently the Secretary, Industries, Investment Promotion & Commerce Department.

Of the 2003 batch of the Indian Administrative Service, he has also been Secretary in MSME Department and Chief Executive Officer of Tamil Nadu Infrastructure Fund Management Corporation Ltd (TNIFMC).

He served in various capacities including Under Secretary, Deputy Secretary (Budget) and Joint Secretary in Finance Department for 5 years.

He was the Collector of Krishnagiri and Ramanathapuram Districts.

He served as Vice Chancellor in-charge / Registrar of Tamil Nadu Law University, Managing Director of Chennai Metropolitan Water Supply and Sewerage Board, Managing Director of Poompuhar Shipping Corporation and Commissioner for Welfare of Differently Abled Persons.

He also served as Special Officer for the 2nd edition of Tamil Nadu "Global Investors' Meet-2019" and also worked as Special Secretary to Government, Industries Department and he successfully conducted the 3rd edition of Tamil Nadu "Global Investors Meet-2024" as Secretary, Industries, Investment Promotion & Commerce Department.

Dr. Sasikumar Gendham, President, ELCINA

Dr. Sasikumar Gendham has over 25 years' of experience in the Electronics Manufacturing industry and has been a part of several national and state level initiatives to enhance electronics manufacturing in support of "Make in India". He served last as the Managing Director of Salcomp India with a long association of about 18 years. He was instrumental in reviving the iconic Nokia Chennai mobile phone factory and bringing the whole campus back to full action during his stint.

Salcomp is world's largest manufacturer of power supplies for smart phones and other electronic devices with to Top OEMs as its major customers. Prior to Salcomp, he was associated with Tyco Electronics and Hical Technologies in Bangalore. He is currently the President at ELCINA, the oldest and largest industry association of Electronics Industry in India established in 1967. In addition, he passionately works with several product startups to support and grow this eco-system.

He holds a Doctorate Degree in Management from SRM Institute of Science and Technology Chennai, M. Tech in Manufacturing Management from BITS Pilani, and an Executive Master Degree in Business Administration from Aalto University Finland.

Mr. Atul Lall, Past President, ELCINA & MD & VC, Dixon Technologies India

Mr. Atul B. Lall is the Vice Chairman & Managing Director of Dixon Technologies (India) Limited. A BITS Pilani alumnus with a master's degree in management studies, he has led Dixon since its inception, driving its growth into a market leader in the EMS industry. With over 30 years of experience, he has played a pivotal role in business expansion, new product introductions, and global positioning.

Beyond Dixon, he serves as an Independent Director at Happy Forgings Limited, a Non-Executive, Non-Independent Director at Max Estates, and a Governing Board Member at Plaksha University. He headed ELCINA as its President for the year 2023-24.

His contributions have earned him multiple accolades, including the "Man of Electronics" Award by CEAMA (2022) and Forbes India's Best CEO Award in the Consumer Durables Category (2024). He has also been appointed Co-Chair of the FICCI Committee on Mobile Manufacturing for 2025.

An avid reader, Mr. Lall has authored 'Gita and India Inc.', reflecting on leadership through Indian philosophy. In his leisure time, he enjoys reading and playing golf.

technical assistance for formulation and implementation of financial and accounting guidelines for National Rural Health Mission (NRHM), a flagship scheme of Government of India.

He holds a degree in MBA (Finance) from Faculty of Management Studies (FMS), Delhi University and a Postgraduate in Operational Research from Delhi University. He is also a Certified Internal System Auditor (CISA) qualified as awarded by ISACA, USA.

Mr. Nikhil Rao, Vice President, India Operations

Nikhil Rao serves as the Vice President of Operations at Flex India, where he plays a pivotal role in driving strategic initiatives and guiding business units and operational teams towards excellence.

With over 20 years of diverse experience in operations, program management, business development, and logistics services, Nikhil has established himself as a leader in the industry.

Previously, he led the Global Services and Solutions (GSS) division for India, where he successfully launched GS's inaugural forward logistics footprint, seamlessly integrating forward fulfillment with manufacturing processes.

His leadership has been instrumental in strengthening customer relationships, fostering innovative business models, and significantly enhancing financial performance.

His commitment to operational excellence and strategic growth continues to drive Flex India's success in a competitive market.

Nikhil holds a Bachelor's degree in Mechanical Engineering from R.V. College of Engineering in Bengaluru and an Executive MBA from the prestigious Indian School of Business, Mohali.

Mr. Richard Puthota, Sr Vice President ELCINA & Sr. Director, MacDermid Alpha Electronics Solutions

Richard Puthota is a distinguished leader in the electronics manufacturing industry, with over 37 years of expertise spanning PC fab, semiconductor materials, and electronics assembly.

Currently serving as Senior Director – Business Development at MacDermid Alpha Electronics Solutions (MAES), he oversees business operations across India, Sri Lanka, the Middle East, and South Africa.

An alumnus of IIM Bengaluru, Richard holds a BS in Chemical Technology from Loyola Academy, Hyderabad) and PG Diploma in Applied Chemistry (Loyola College, Madras).

Mr. Puthota has been instrumental in advancing electronics materials and processes, having trained over 10,000 engineers across India and overseas.

Recipient of multiple Awards for Sales & Customer Technical Support, including the prestigious President Award (2014) for Best Salesperson (Global) across the organization.

He has deep industry knowledge and hands-on experience. With his vast experience and commitment to industry growth, Mr. Puthota brings insightful perspectives on technological trends, market dynamics, and best practices in electronics manufacturing.

Session I
11:30 hrs – 12:20 hrs

Markets driving Opportunities for the Indian Supply Chain Eco-System

Session Moderator:

Mr. Devendranath, CEO & MD, Feedback Advisory Services Pvt. Ltd.

Mr. Dev has over three decades of research and consulting experience working with the best of firms & market leaders and Industry associations in the field of Electronics and Semiconductors.

He serves as the Knowledge Partner to prestigious Industry Associations, including ELCINA, ICEA, MAIT, IESA, and FICCI, and assists the electronics industry in developing various strategies and white papers to drive growth in India.

He leads a team of Forty consultants, who are experienced in the areas of strategic consulting & advisory and in-depth Industrial / B2B market research engagements in India, the Middle East, South East Asia and Australia.

He has been involved in over 1650 engagements involving Strategic Consulting, Opportunity assessment engagements, Diversification & Growth strategies and Policy Advocacy reports in these three decades.

Mr. Josh Foulger, President, IT HW and New Projects, Dixon Technologies

Mr. Foulger, based at Dixon's Chennai hub. He will focus on expansion into the IT hardware landscape, focusing on scaling our capabilities in electronics and computing sectors.

Josh is a seasoned industry veteran with over 30 years of global experience in Electronics System Design & Manufacturing (ESDM).

He joins us from Zetwerk, where as CEO of Electronics, he led the division's rapid expansion into new manufacturing verticals and successfully integrated key acquisitions to drive significant growth. Prior to that, he spent nearly a decade as the Managing Director of Bharat FIH (Foxconn Technology Group) and held long-term international leadership roles at Nokia, where he was a primary architect of the electronics manufacturing ecosystems in India and Vietnam.

His leadership approach is defined by the Four Es—Envision, Equipping, Empowerment, and Execution—a philosophy that emphasizes strategic agility and the development of resilient, diverse teams. Josh has a proven track record of scaling high-growth businesses and integrating sophisticated manufacturing processes to achieve excellence.

Josh holds a Master's degree in Industrial Engineering from the University of Texas, Arlington, and continues to contribute to the industry through various advisory boards and government councils.

Niranjana Nayak, Managing Director, Delta Electronics India Private Limited

Mr. Niranjana Nayak is a highly experienced professional with over 30 years of experience in the power electronics industry. He holds an MBA in marketing and has a strong drive to create new solutions that deliver business value and address customer needs.

Mr. Nayak joined Delta Electronics India in 2004 and has been a guiding force in building a successful track record of consistent value creation across all the operations for which he has been responsible.

He has a wealth of experience in various industries and businesses, including telecom, renewable energy, networking, IT, power, automotive, and lighting.

In 2014, Mr. Nayak took on the role of Business Head for PV Inverter Division, where he identified areas with significant market potential and drew up a clear strategy to harness the vision by focusing on "Delta Solar Inverter Business to Maintain No. 1 Position in Rooftop Segment for the Last Five Years in India." Under his leadership, Delta Electronics India has become a leading player in the solar inverter business in India.

As Managing Director, Mr. Nayak has identified areas with significant market potential and drawn up a clear strategy for product development and for enhancing Delta Electronics India's presence in new segments. He has built a strong track record of consistent value creation over the years across all the businesses for which he has been responsible.

With immense interpersonal skills, Mr. Nayak has successfully initiated the South Regional Office in Bangalore and incubated & driven the Renewable Energy, Thermal Solution, and DC-DC Converter businesses, which have become successful today. He is a respected leader who inspires his team to achieve their full potential and deliver outstanding results.

Overall, Mr. Niranjana Nayak is a highly accomplished professional with a strong track record of success in the power electronics industry. He is a visionary leader who has a deep commitment to driving growth and delivering value to stakeholders.

Mr. Satendra Singh, CEO, Syrma SGS

Satendra, CEO of Syrma SGS, is a global executive with over three decades of experience in strategy, operations, global supply chain, manufacturing, and business management with global multinationals. Satendra joined Syrma SGS from Nokia, Helsinki, where he was heading global Hardware Service Delivery.

Satendra, in his earlier assignments, has setup multiple world class operations including India's largest telecom infrastructure manufacturing facility "making in India for global markets", crafted and implemented new global supply network

strategy targeted to increase agility and market proximity, led Industry 4.0 initiatives culminating in a plant becoming a WEF lighthouse factory, and turned around a loss-making supply operation.

Satendra holds a master's degree in manufacturing management from BITS Pilani, and has completed advanced management program from IIM Bangalore, and several executive leadership programs.

Session II
12:20 hrs – 13:20 hrs

Government Initiatives Steering Growth in ESDM

Mr. Nirmod Kumar, Director MeitY Ministry of Electronics and Information Technology (MeitY), Govt. of India

Shri Nirmod Kumar is working in Ministry of Electronics & Information Technology, Government of India as Director since March, 2021. Before joining this Ministry, he was working in North Central Railway, Jhansi as DRM(S&T). He is IRSSE, Batch: 2005 officer. In his current role at MeitY, he is responsible for Product Linked Incentive Scheme (PLI) for Large Scale Electronics Manufacturing Scheme (LSEM), PLI for IT Hardware, Investment Promotion, and

Scheme for Promotion of Manufacturing of Electronic Components and Semiconductors (SPECS). Mr Kumar has been a key official and driver for formulation of the Electronic Components Manufacturing Scheme which has been instrumental in promoting investments in non-semiconductor components, modules, materials and capital equipment. Launched with a budget of INR 22,900 Crores, the Scheme has received a highly positive response and its budget has been increased substantially to INR 40,000 Crores.

He completed his PGDM (Finance) from National Institute of Management Faridabad, and B.E. (Electronics & Communication) from MMMEC Gorakhpur.

Dr. Darez Ahmed, IAS, MD & CEO, Guidance Tamil Nadu

Dr. Darez Ahamed is a medical doctor turned bureaucrat who joined the Indian Administrative Service (IAS) in 2005. He currently serves as the Managing Director of Guidance Tamil Nadu, the state's nodal agency for investment promotion and industry facilitation. Throughout his distinguished career, Dr. Ahamed has held various key administrative roles. He served as Sub-Collector in the Devakottai Sub-division of Sivaganga District and as Additional Collector (Development) in both Madurai and Krishnagiri Districts. He also had a brief

tenure as Executive Director at Guidance in 2019. His other notable positions include Joint Commissioner (Commercial Taxes) for the Chennai North Division, Deputy Commissioner (Works) for the Chennai Corporation, and Secretary to the Government in the Special Programme Implementation Department of Chennai District. In recognition of his exemplary public service, Dr. Ahamed was honored with the Prime Minister's Award for Excellence in Public Administration by Prime Minister Shri Narendra Modi for his impactful work in combating female infanticide and improving the sex ratio at birth.

Shri K. Bhaskar, Secretary, Information Technology Electronics & Communications Department, Govt. of Andhra Pradesh

Shri Bhaskar Katamneni is a senior IAS officer of 2004 batch, currently serving in the State of Andhra Pradesh. He holds Doctorate in Geography from Jawahar Lala Nehru University. As of 2025, he has been appointed as the Secretary to the Government of AP in the IT, Electronics & Communications (ITE&C) Department, and is concurrently holding full additional charge as Secretary for the Real-Time Governance (RTG) Department, Human Resource Development and the

Grama/Ward Sachivalayam (GSWS) Department. In this capacity, Shri Bhaskar Katamneni occupies a key position in the State secretariat, overseeing Andhra Pradesh’s policy implementation across all the above key departments of the State. He has held several key positions across various departments, contributing significantly to the state's development initiatives. Currently as Secretary (ITE&C) he is leading the state's digital transformation and IT initiatives, Human resource Development and RTGS. Previously he has held several notable positions including Commissioner, School Infrastructure, School Education Department to oversee infrastructure refurbishment in over 55,000 schools. Commissioner, AP Capital Region Development Authority (APCRDA), Commissioner, Health & Family Welfare and Mission Director, National Health Mission (NHM) to lead health initiatives, including the expansion of telemedicine services and digital health records. His leadership in implementing large-scale projects and embracing digital solutions has been pivotal in the state's progress.

Special Talk 13:20 hrs- 13:30 hrs	Energizing India’s Electronics Workforce: Nutrition as a Hidden Driver of Engagement and Retention
Q&A 13:30 hrs – 13:40 hrs	Insights on Importance of Nutrition and Health on Productivity and Retention of Talent

Mr. Mohit Varma, Chief Operating Officer – Industries, Sodexo India

Mohit Varma is the Chief Operating Officer – Industries at Sodexo India, where he leads food and employee engagement solutions for large industrial and manufacturing clients. With over two decades at Sodexo, Mohit brings a unique blend of culinary grounding and strategic leadership, having progressed through roles spanning operations, culinary leadership, marketing, deployment, and segment leadership.

Mohit focuses on leveraging food as a strategic enabler of workforce engagement, productivity, and retention, particularly in complex manufacturing environments. He has been instrumental in driving innovative, large-scale food service models and infrastructure-led solutions that align operational efficiency with employee wellbeing.

Mohit's perspective is rooted in the belief that differentiated food experiences can play a critical role in attracting and retaining talent – making food services a powerful, yet often underutilized, lever for organizational performance in India's electronics manufacturing sector.

Session III 14:30 hrs – 15:30 hrs	Unlocking New Export Market Opportunities
--	--

Mr. Sudheer Narayan, Partner, Bain & Company

Sudheer Narayan is a partner in the Bain Mumbai office. He is a leader in the Global Technology practice, specializing in Semiconductor and Electronics, Engineering and R&D, Advanced manufacturing, and private equity.

Over the past 20 years, Sudheer has advised clients across a variety of sectors on growth strategy, business diversification, M&A, cost optimization, and operating model transformation. He has advised multiple global companies on their sourcing strategies for products and services from India.

He is the co-author of Bain's Global ER&D report and co-authored a report with Microsoft on the adoption of AI in India.

Sudheer holds a postgraduate degree in management from the Indian Institute of Management, Bangalore, and a bachelor's in technology from the Indian Institute of Technology, Madras.

Mr. Varun Manwani, MD, Sahasra Semiconductors Pvt Ltd

Varun Manwani is a second-generation entrepreneur and Director at Sahasra Group. An Economics (Honours) graduate from the University of Delhi, he joined the Group in the year 2000, deliberating beginning his career in a junior operational role, working across every business and function to build a deep, ground-up understanding before assuming leadership. In his own words, he often says he studied at the “Sahasra University,” having learned the business on the job by wearing multiple hats and overseeing diverse functions

With 25 years in the industry at a still very young age Varun has led Sahasra’s evolution into a globally relevant electronics and semiconductor manufacturing platform spanning PCB fabrication, EMS, RFID solutions, memory packaging, semiconductor OSAT/ATMP, and IT hardware. Under his leadership, Sahasra became India’s first company to manufacture enterprise grade server motherboards, the first to establish OSAT/ATMP operations, and also the first semiconductor packaging company to export memory products from India, marking a milestone in India’s participation in global semiconductor supply chains.

He is recognised for strategic risk-taking and business turnarounds, including the successful revival and scaling of Infopower, followed by a joint venture with Taiwanese technology major MiTAC. Beyond the enterprise, Varun plays an active role in shaping India’s electronics ecosystem as a Member of the Executive Council at ELCINA, Core Member of the SEMI-ELCINA Workforce Development Program, Member of the Working Group for Semicon India Program 2.0, and President of CIMEI.

A Make in India advocate, Varun is aiming to take India at a global platform by building globally trusted manufacturing capabilities from India through skilled talent, resilient supply chains, and long-term partnerships.

Mr. Bhaskaran Ravi, Country Management India and Senior Director Operations, AT&S India Pvt Ltd

Mr. Bhaskaran Ravi recently joined AT&S India as Country Manager & Senior Director Operations, in August 2025. A native of Bengaluru, he brings more than 15 years of experience in the Semiconductor Industry, having held key roles previously at Micron Technologies and SanDisk Corporation. His career spans India, Malaysia, Singapore & China, working closely with diverse global teams, he has led greenfield setups in Malaysia and India.

Most recently, he served as Director of Operations at Micron Technologies in Ahmedabad. He is a proud father of two and is passionate about fostering innovation and driving operational excellence & passionate about scaling advanced manufacturing in India.

Mr. M A Johar, President, ADITYA Infotech (CP PLUS)

As President, Mr. M.A. Johar is leading all the government surveillance and electronic security projects conducted by CP PLUS.

Industry veteran M.A. Johar, an Electronics and Telecommunications Engineer as well as a Law Graduate, leads Strategic Business at CP PLUS, leveraging his 30+ years of experience to propel multinational brands towards unprecedented growth. Renowned for his mastery of strategic projects, Johar has been instrumental in transforming India's security landscape.

Adept at deciphering market trends and customer demands, Johar crafts winning business strategies, consistently delivering revenue surges and unparalleled customer satisfaction. Currently, he captains CP PLUS's mission to blanket India with comprehensive surveillance solutions, working hand-in-hand with the Government to elevate national security standards.

Johar's legacy extends beyond business success. He is a passionate advocate for fostering development within India, actively contributing to reinforcing the nation's security infrastructure

Day Two- 11th February 2026

09:30-10:00 hrs	Arrival & Registration
10:00-11:00 hrs	Inaugural Session

Dr. N. Manjula, I.A.S , Secretary, Department of Electronics, Information Technology, Biotechnology and Science & Technology, Government of Karnataka

Dr. N. Manjula, IAS (2002 batch) is a distinguished administrator known for pioneering leadership, inclusive governance, and results-driven public service. A qualified medical professional (MBBS) prior to joining the civil services, she brings a rare blend of scientific training and citizen-centric empathy to complex administrative responsibilities. As Secretary to Government, Department of

Electronics, Information Technology, Biotechnology and Science & Technology (EI, IT, Bt & S&T), Government of Karnataka, Dr. Manjula provides strategic direction to the State's technology-led growth agenda, strengthening innovation systems, enabling policy reforms, and accelerating outcomes across emerging technology domains.

Dr. N. Manjula, IAS, has built a distinguished career across municipal governance, tourism development, higher education administration, and critical infrastructure, bringing a rare blend of people-centric administration and large-scale institutional leadership. She joined the Indian Administrative Service in 2002 and has since held a wide range of responsibilities that reflect both versatility and sustained impact.

In her current role, Dr. Manjula has helped steer Karnataka's next phase of startup- and innovation-led growth, strengthening the policy-and-program backbone that enables entrepreneurs, deep-tech talent, and industry collaboration at scale. Under her leadership, the Department has advanced a coherent portfolio of next-generation policies, including the Karnataka Startup Policy 2025–30, the Karnataka IT Policy 2025–2030, and the Karnataka Space Technology Policy 2025–2030, to sharpen Karnataka's competitiveness across innovation, investment attraction, skilling, infrastructure creation and global market linkages. Complementing these policy reforms, the Department has also accelerated ecosystem execution through institutional platforms such as INNOVERSE innovation campus envisioned to bring together deep-tech startups, corporates, global R&D organisations and venture networks and allied initiatives announced through flagship forums to improve access to mentorship, investors and prototype-development infrastructure. Collectively, these interventions reflect a clear focus on making Karnataka's innovation economy more outcome-oriented: reducing friction for startups, building deep-tech capability, and enabling technology adoption that translates into public value and sustainable economic development.

Thiru. Sandeep Nanduri, IAS, MD, Tamil Nadu Industrial Development Corp. Ltd (TIDCO)

Thiru. Nanduri, IAS of the 2009 Batch, Tamil Nadu cadre, is a senior civil servant currently serving as the Managing Director of the Tamil Nadu Industrial Development Corporation Limited (TIDCO) which is a premier industrial development agency of the Government of Tamil Nadu, established in 1965. It endeavours to achieve a balanced and continual industrial growth by promoting medium and large industries in the State through Joint Ventures. He also serves as the Chairman of TIDEL Park Coimbatore. Thiru Nanduri is an alumnus of IIM Bangalore .

Previous Post(s) Held in the Government of Tamil Nadu:

- Director of Tourism & Managing Director, Tamil Nadu Tourism Development Corporation Limited.
- District Collector and District Magistrate, Tiruvannamalai.
- District Collector and District Magistrate, Tuticorin.
- District Collector and District Magistrate, Tirunelveli.
- Executive Director at Chennai Metro Water Supply and Sewage Board, Chennai.
- Commissioner, Madurai Corporation, Madurai.
- Additional Collector, PD-DRDA.

Other Work Experiences:

- Worked at Hewlett Packard India Sales Pvt Ltd
- Worked for Government of India Education:
- Qualification - BE (ECE), MBA (IIM-Bangalore).
- Indian Institute of Management, Bangalore.
- St. Paul's High School, Hyderabad.

Ms. Sonam Motwani, Founder & CEO, Karkhana.io

Sonam Motwani is the Founder & CEO of Karkhana.io. A graduate of IIT Bombay, who started Karkhana.io to simplify manufacturing for hardware companies in India. Sonam began her career at Procter & Gamble, where she led product initiatives and managed \$6 million in capital projects to expand manufacturing capacity across India, the Middle East, and Africa.

During this project, as part of the technical excellence team, she witnessed firsthand the challenges involved in sourcing and manufacturing parts in India — an insight that later inspired her entrepreneurial journey. Under her leadership, the company has scaled from a sourcing platform to a full-stack contract manufacturing partner for EMS & Box Build Solutions, powering some of India's most innovative hardware teams. Sonam is passionate about enabling indigenous product innovation and building manufacturing infrastructure that can support India's hardware ambitions.

Mr. Arun Devaraj, VP & MD, Intelligent Systems, Aptiv Asia Pacific (Non-China)

Arun Devaraj is the Vice President and Managing Director (VP & MD- AS & UX-APAC). He oversees the AS&UX business across India and the broader APAC region (excluding China), managing technical centres and manufacturing operations. Devaraj recently spearheaded the expansion of the Aptiv Oragadam plant in Chennai. This upgraded facility focuses on producing advanced cockpit controllers and safety sensors like radars and cameras for Indian and global OEMs.

Before Aptiv, he served at leadership positions in Visteon, where he focussed on infotainment and telematics.

Session I
11:15 hrs – 12:15 hrs

India's Semiconductor Leap: Building a World- Class Ecosystem

Session Chair: Mr Balaji Thirumalai, Partner, Head Semiconductors & Electronics Mfg, Bain & Company

Balaji Thirumalai is a member of Bain Technology and Cloud Services practice. He serves as the head of the Semiconductors and Electronics Manufacturing practice in India. In addition he advises on Engineering and R&D and IT services.

Balaji has extensive operational experience in the semiconductor industry as well as experience in delivering digital transformation, infrastructure, application management and design engineering services to leading Fortune 1000 software, hardware and media companies.

Prior to joining Bain, he most recently headed up M&A for FTC Solar and served as Chief Commercial officer at Solaria, a Solar module startup. He also led SunEdison's Commercial and Industrial Business in Asia Pacific, establishing #1 share in India. Balaji's was SVP and Business Head of Mindtree's (now LTIMindtree) Hi-Tech and Media Business managing their \$400M P&L.

He is also a co-inventor for three US patents and holds a MBA from UC Berkeley's Haas School of Business and a MS in Electrical Engineering from the State University of New York at Stony Brook.

In his spare time, he enjoys all things pop-culture (movies, TV and books), sports (cricket, tennis and the NFL), and games (trivia, puzzles, board games and Fantasy Football).

Mr. Paul ilanghovan T., Head Operations, Kaynes Semicon Pvt Ltd

Mr. Paul ilanghovan, a Mechanical engineer with Masters in Business Administration in Operations & Masters in Manufacturing Technology. His interest was in Semiconductors and did project on enhancing Wafer Sawing methods using different techniques & tools.

Having three decades of industrial experience in which 26 years in Semiconductor OSAT business. Expertise in Manufacturing Operations where he introduced various methods to enhance Employee productivity, Yield improvement, Cycle Time reduction etc. Excellent in People Management & Operations Management. Served in 4 OSAT companies in India – SPEL Semiconductors Ltd (1st Semiconductor Industry in India established in 1988, 100% EOU), Sahasra Semiconductors Pvt. Ltd. (1st Memory product Manufacturing in India), TATA Semiconductors Pvt. Ltd. and presently with Kaynes Semicon Pvt. Ltd and handled / handling Manufacturing Operations. Present role as Head of Operations.

In addition to Operations, handled Project Management & Business Development. While handling Business development, increased customer base & added new customers from US & Europe. Travelled across the globe on business mission (US, Germany, Swiss, France, Singapore, Malaysia, Japan, China, Taiwan, Thailand).

Successfully played key role in establishing first Memory Manufacturing Green Field Semiconductor company in India (in Bhiwadi, Rajasthan) & India's first indigenous Semiconductor Assembly & Test facility (Brown field) in Bangalore. Now working on the second Green Field project in Sanand, Gujarat.

Presented various technical papers including one in Fukuoka, Japan in 2008 organised by JETRO on Semiconductors Process & Manufacturing Technology.

Mr. Elan Chelian, Vice President & Managing Director, Sanmina India

"Elan" is Vice President & Managing Director of Sanmina India, Sanmina Corporation (Nasdaq: SANM), a Fortune 500 company, leading integrated manufacturing solutions company that makes some of the world's most complex and innovative electronic, optical and mechanical products.

Since 2007, He is associated with Sanmina India's 100 acres Integrated Manufacturing Campus, which is providing end-to-end solutions, delivering superior quality services to World's leading OEMs in Medical, Telecom, Automotive, Industrial, Computing and Storage, Defense & Aerospace segments.

He brings with him rich and diverse experience of the OEM, ODM & EMS industry spanning 32 years. Before joining Sanmina, He has held various leadership roles in the technology conglomerates like APC Schneider Electric in India, Seagate & Toshiba TEC in South Asia Pacific region.

Ravi M. Bhatkal, Ph.D, Vice President, Strategy, MacDermid Alpha Electronics Solutions

Dr. Ravi Bhatkal serves as Vice President, Strategy, MacDermid Alpha Electronics Solutions, and Director of the India entities of Element Solutions Inc. Previously, he served as Managing Director, MacDermid Alpha Electronic Solutions India Private Limited, a unit of Element Solutions Inc., an NYSE listed \$2.5 billion specialty materials and chemicals company.

Dr. Bhatkal serves as Member of the Global Board of Directors of iNEMI, the global electronics industry consortium with over 85 global electronics systems, sub-systems, components, PCB and materials manufacturers with cumulative member revenues in excess of \$750 billion, as well as universities and research institutes. Dr. Bhatkal serves as member of the Electronics Manufacturing Committee of American Chamber of Commerce, India, and serves as a Research Advisory Board Member at the Central Manufacturing Technology Institute, Bengaluru. He also serves as an Industry Advisory Board Member at the Center for Advanced Electronics Manufacturing and Skills Development at IIT Madras and as an Industry Advisory Board Member at the CoE in Silicon Photonics (CPPICS) at IIT Madras. He also served as National Executive Board member and Chairman of the Tamil Nadu Chapter of American Chamber of Commerce, India.

Dr. Bhatkal also teaches a course titled “Fundamentals of Semiconductor Packaging Materials” as part of the BITS Pilani CREST Professional Development Course on “Introduction to Device and System Packaging”. He has also served as a guest lecturer at IIT Kharagpur and CMTI on the same topic.

Previously, Dr. Bhatkal served as VP, Energy Technologies, at Alpha Assembly Solutions, an Element Solutions Inc. Business, where he built and scaled a new business in the Alternative Energy and Energy Efficiency value chains. Dr. Bhatkal also served as VP and GM of the global Engineered Products business at Alpha and led Global Strategic OEM Marketing, Strategic Planning, and the corporate New Business Development initiatives at Cookson Electronics (Alent), a global >\$1 billion specialty materials company.

Dr. Bhatkal has previously served on the Industrial Advisory Board of the Lighting Enabled Systems and Applications NSF Engineering Research Center at Rensselaer Polytechnic Institute in Troy, New York, USA, and the Technology Commercialization Advisory Board for Physical Sciences at Rutgers University, New Brunswick, New Jersey, USA.

Dr. Bhatkal's early experience includes roles in R&D in India, and management consulting, as well building an advanced materials start-up, in the USA.

Dr. Bhatkal earned a Ph.D. in Materials Science and Engineering and M.B.A. from Rensselaer Polytechnic Institute, USA, an M.S. in Materials Science and Engineering from Vanderbilt University, USA, and a B.E. in Mechanical Engineering from the College of Engineering, Pune, India, where he won the Savley Gold Medal. He is widely published, a frequent speaker at conferences and is a co-inventor on ten patents.

12:35 – 13:30 Hrs

**Technical Session: The reliability Edge in PCB Assembly –
Synergizing Materials, Equipment & Process for Zero Defects**

Mr. Richard Puthota, Sr Vice President ELCINA & Sr. Director, MacDermid Alpha Electronics Solutions

Richard Puthota is a distinguished leader in the electronics manufacturing industry, with over 37 years of expertise spanning PC fab, semiconductor materials, and electronics assembly.

Currently serving as Senior Director – Business Development at MacDermid Alpha Electronics Solutions (MAES), he oversees business operations across India, Sri Lanka, the Middle East, and South Africa.

An alumnus of IIM Bengaluru, Richard holds a BS in Chemical Technology from Loyola Academy, Hyderabad) and PG Diploma in Applied Chemistry (Loyola College, Madras).

Mr. Puthota has been instrumental in advancing electronics materials and processes, having trained over 10,000 engineers across India and overseas.

Recipient of multiple Awards for Sales & Customer Technical Support, including the prestigious President Award (2014) for Best Salesperson (Global) across the organization.

He has deep industry knowledge and hands-on experience. With his vast experience and commitment to industry growth, Mr. Puthota brings insightful perspectives on technological trends, market dynamics, and best practices in electronics manufacturing.

Mr. Sakthivel, General Manager, MST Manufacturing Technologies Pvt. Ltd.

With 30 years of professional experience, Mr. Sakthivel specializes in providing advanced Front-End Solutions in PCB CAD-CAM, Manufacturing, and Assembly. His expertise includes PCB Manufacturing and EMS DfM aimed at improving production yield and overall process efficiency.

He is proficient in the design and supply of PCB Assembly Jigs and Fixtures, supporting optimized assembly operations. He has also conducted technical workshops on SMT Stencil Manufacturing for SMTA and various EMS companies, contributing significantly to industry capability building and knowledge sharing.

Mr. Parameswaran S, Head – Product Transfer & Digital Manufacturing, Nokia Solutions and Networks India Pvt Ltd

An engineering professional having experience spanning over 30 years in the Electronic Manufacturing Industry. Currently leading the Product Transfer & Digital Manufacturing function at Nokia's Chennai factory.

Has hands on experience in manufacturing, field engineering, reverse logistics and production engineering roles in various multinational companies with considerable international exposure.

Passionate about adoption of new technologies in furthering Industry 5.0 implementation to improve manufacturing operations

Mr. Jagadeesh Rajagopalan, ESDM, Plant Head, Larsen & Toubro Ltd.

As a Senior Leader he drives the convergence of electronics manufacturing, smart factories, and digital transformation to build scalable, globally competitive, and future-ready operations.

His expertise spans:

- Electronics Manufacturing Services (EMS) & Smart Factories – covering SMT, system integration, high-reliability manufacturing, Industry 4.0 / 5.0 adoption, and world-class quality systems across Consumer Electronics, Automotive, Industrial, Data Centre Infrastructure, Power Electronics, Semiconductor (OSAT / system-level), Defence & Aerospace segments
- Digital Operations, Cloud, AI & Data Analytics – enabling data-driven manufacturing, AI-assisted quality and productivity, MES integration, and resilient digital infrastructure for scale
- Greenfield & Scale-Up Operations – from factory concept, CapEx planning, and equipment strategy to rapid ramp-up, yield stabilization, and operational excellence

With over two decades of global leadership, he has held senior leadership roles at Dixon Technologies, Wistron Infocom, and Flex. His current focus is on building digitally enabled, resilient manufacturing ecosystems—where electronics, cloud, AI, and intelligent automation come together to deliver speed, quality, and cost leadership.

Session II
14:30 hrs – 15:30 hrs

Indigenization of Capital Goods- Opportunities & Importance for Advancing Manufacturing Technology

Dr. Nagahanumaiah, Director, Central Manufacturing Technology Institute

Dr. Nagahanumaiah is a distinguished scientist, visionary leader, and passionate institution builder in the field of manufacturing research, with more than three decades of impactful contributions. Currently serving as the Director, Central Manufacturing Technology Institute (CMTI), Bengaluru, he has steered the institute into a hub of innovation, technology development, and industry collaboration, positioning it at the forefront of India's journey toward self-reliant and intelligent manufacturing. He holds a PhD from the Indian Institute of Technology Bombay.

Dr Nagahanumaiah began his illustrious career at CSIR-CMERI, Durgapur, where he founded and led the pioneering Micro-Nano Systems Engineering group.

As Director of CMTI, Dr. Nagahanumaiah has transformed the institute's mandate through strategic leadership and innovation-driven policies. He has initiated technology marketing and open innovation frameworks, raising the Technology Readiness Level (TRL) of 75 potential technologies and successfully transferring major breakthroughs to the Indian industry. Under his stewardship, CMTI has delivered 40 advanced machines, rigs, and products, licensed eight flagship technologies, and secured 32 patents and IPRs, strengthening India's competitiveness in manufacturing. His emphasis on Atmanirbhar Bharat has accelerated the nation's progress toward self-reliance in critical technologies.

A prolific researcher with 115 publications, 10 patents, and mentorship of 27 postgraduate and doctoral scholars, he continues to shape the next generation of innovators. His ability to balance deep research with national-scale leadership reflects his rare blend of scientific rigour and strategic foresight.

Dr Nagahanumaiah's outstanding contributions have been recognised with numerous accolades, including the Vasvik Award (2023) for lifetime contributions to industrial research, the Innovation Leaders Award (2025) from the World Innovation Congress, and the Distinguished Leadership Award (2021) from the International Society of Industrial Engineering and Operations Management, USA. He is also a Fellow of the Indian National Academy of Engineering (FNAE) and a recipient of several national fellowships and honours, including the prestigious "We Think for India" award from the Hon'ble Prime Minister of India.

Through his visionary leadership, Dr. Nagahanumaiah continues to inspire scientists, engineers, and industries alike. As the Head of a National R&D Institute, he embodies the mission of harnessing research, technology, and innovation to strengthen India's manufacturing ecosystem, elevate workforce skills, and contribute to the nation's global leadership in advanced manufacturing.

Mr. Shivkumar Srinivasan, Managing Director, MEL Systems and Services Ltd.

Mr. Srinivasan is a professional with over 22 years of experience providing solutions in Information Technology and Industrial Automation. An alumnus of Temasek Polytechnic (Singapore), Monash University (Australia), University of Western Australia and Chennai Business School, with qualifications in Information Technology Systems and Business Management. Shivkumar heads MEL Systems and Services Ltd., MELSS, an organization providing solutions for Electronic Manufacturing and Testing, Industrial Automation, Digital Technology Solutions and Simulators.

Over the years, he has designed and delivered several Industrial Automation solutions including Material Handling, Assembly Lines, End-of-line testing and Packing solutions for customers from a variety of industries, such as Automotive, FMCG, Refractories, Ceramics, Metals & Minerals, Rubber and Electronics Manufacturing Services, involving Electro-mechanical, instrumentation and Robotic solutions. Prior to joining MELSS, Shivkumar worked in Singapore, delivering mission critical software applications for Finance, Insurance and Retail industries. With a strong background in software and a passion for engineering & technology, he has been part of designing and implementing large scale multi-tier applications for MES, Tracking & Traceability and Industrial Internet-of-Things for Manufacturing industries.

Mr. Vinoth Perumal, CEO, Ecopmin Technologies

The leader who has seamlessly bridged the gap between global precision and Indian innovation. Starting his career in 2006 with Nokia, he spent over a decade gaining deep industry insights across markets like the UK, Singapore, Japan, and Korea, collaborating with global icons such as Flex, Jabil, and Samsung.

In 2017, he translated that global vision into local reality by founding Ecopmin Technologies India Private Limited. Recognizing the untapped potential of India's electronics manufacturing sector, his leadership has since expanded the company into a diversified powerhouse for SMT and automation solutions.

As a staunch advocate of the 'Make in India' initiative, he is not just a participant in the industry; he is an architect of its growth. A true technocrat and visionary entrepreneur—the Founder of Ecopmin Technologies, Mr. Vinoth Perumal!

Mr. Raghu Srinivasa is the Managing Director of 3D Concept Analysis and Development India Pvt. Ltd. (3DCAD)

A global engineering and manufacturing solutions organization. He began his entrepreneurial journey in 2007 with a simple vision, unwavering determination, and a single desktop set up at his dining table.

Driven by a constant desire to grow and innovate, Raghu focused on nurturing talent by training freshers and building strong teams from the ground up—laying a solid foundation for sustainable success. His bold leadership and global outlook enabled 3DCAD to expand into European and U.S. markets, evolving the company into a truly international enterprise.

A significant milestone was achieved in 2019 with the launch of 3DCAD's manufacturing unit and Project Division, further strengthening its end-to-end capabilities. Today, under his leadership, 3DCAD offers comprehensive in-house solutions spanning design, simulation, automation, manufacturing, software, and product development, with operations across multiple countries. Through perseverance, strategic vision, and passion for excellence, Raghu Srinivasa has built not just a successful organization, but a community of empowered professionals. His journey continues to inspire aspiring entrepreneurs and industry leaders to dream big and work relentlessly toward their goals.

Mr. Vinoth Perumal, CEO, Ecopmin Technologies

The leader who has seamlessly bridged the gap between global precision and Indian innovation. Starting his career in 2006 with Nokia, he spent over a decade gaining deep industry insights across markets like the UK, Singapore, Japan, and Korea, collaborating with global icons such as Flex, Jabil, and Samsung.

In 2017, he translated that global vision into local reality by founding Ecopmin Technologies India Private Limited. Recognizing the untapped potential of India's electronics manufacturing sector, his leadership has since expanded the company into a diversified powerhouse for SMT and automation solutions.

As a staunch advocate of the 'Make in India' initiative, he is not just a participant in the industry; he is an architect of its growth. A true technocrat and visionary entrepreneur—the Founder of Ecopmin Technologies, Mr. Vinoth Perumal!

KITCHEN WORKS.

a **sodexo** brand

Transforming Canteens into Cafeterias

Because today's workforce needs more than just a meal break.

As industrial workplaces evolve, employee expectations rise. They seek energy, variety, care, and belonging - delivered with speed and consistency.

Thoughtfully crafted food experiences go beyond meals, boosting wellbeing, morale, and connection every day.

PILLARS OF KITCHEN WORKS

Variety Works

Great value
Fresh choices

Energy Works

Cafeterias designed to reflect your brand ethos
Engaging spaces that bring people together

Sodexo India Services Private Limited.

Shri R Saravanabhavan, Deputy Adviser, NITI Aayog

Shri R Saravanabhavan is Deputy Adviser in NITI Aayog since 2012 and has been associated with formulation of Policies of Mines and Mineral Sector including research oriented fields such as Electronic Waste, Red Mud, Fly ash, Slag Mission and Rare Earths policies of the Government of India. He has completed his Master degree in Applied Geology from University of Madras in the year 1995 and was inducted by Indian Bureau of Mines, Ministry of Mines as a field Geologist in 1996. After a brief stint in Ministry of Mines for a period of 17 years he joined the NITI Aayog (erstwhile Planning Commission).

He possesses 30 years of experience in minerals and metals sector and has been meticulously working in various programmes such as “Waste to Wealth Mission of the Government”, Critical Minerals Mission, Analysis of Industrial Mineral Requirements, Regulation and development of minerals and environmental protection in mining areas, Rare Earth Programmes of the Government of India. During the last ten years he has extensively worked in the field of Rare Earth in association with Department of Atomic Energy. He is also a signatory in the “Critical Minerals Report” launched by the Ministry of Mines in 2023 and is a member in the Inter Ministerial Committee of Rare Earths and National Critical Mineral Mission.

He has been involved in the policy planning of NITI Aayog covering Ministry of Mines and Department of Atomic Energy along with the NITI’s Circular Economy Cell for the last 13 years. He has been the driving force in the recently notified “Scheme to Promote Manufacturing of Sintered Rare Earth Permanent Magnet” launched by the Ministry of Heavy Industries and has worked for the last six years in the upcoming of the scheme.

He has been involved in various Apex Committees of Ministry of Mines & Department of Heavy Industries and is the recipient of the “Atmanirbharta Award for Best Policy Initiative in Rare Earths” by the Rare Earth Association of India” in the year 2025. He is also a member in the Critical Mineral Board of Indian School of Mines, Dhanbad and Institute of Minerals and Materials Technology (IMMT), Bhubaneswar.

Dr. Sunder Raju P. V, Scientist-G, Geochronology, CSIR-National Geophysical Research Institute

Dr. P. V. Sunder Raju is Chief Scientist at the National Geophysical Research Institute, Hyderabad, specializing in geochemistry and geodynamics of strategic and critical minerals. He completed doctoral and post-doctoral studies in Canada, Finland, and South Africa, with notable research on Rare Earth Elements and glauconites for potassium fertilizers. A fellow of 20 prestigious societies including GSA, GS, and the Society of Economic Geologists (20+ years), he has led Ministry of Mines projects identifying gold, Ni-Cu-Co-PGE, potash, and REE deposits in India's Dharwar greenstone belt. His work features in leading journals like *Geochimica et Cosmochimica Acta* and conferences such as Goldschmidt and AOGS etc.,

Mr. Nagarajan Mahadevan, MD, Entellus Industries Pvt Ltd.

He has more than 40 years of experience in Mining, Metals & Processing. Significant experience in the greenfield plant and startup operations.

Pioneer in the segment of Heavy Mineral sands & Atomic Minerals in India. o Key experience includes working CEO of Transworld Garnet (First ever 100% FDI in the mining segment in India). o Advisor to large firms including VV Minerals, Midwest group, Pa I Co, African Mineral Sands, GREL, Advisor to the Government of India and associated government entities such as Andhra Pradesh Mineral Development Company o Work experience with key International firms including DuPont, William & Sons, Harvey, and Barton Mines.

ELCINA was established in 1967 as the first industry association supporting electronics hardware, when India's Electronics industry was still in its infancy. Since then, ELCINA has established itself as an interactive forum for electronics and IT manufacturers. ELCINA actively interacts with the government and advises it on policy and business environment issues. It networks with technical institutions and business support organizations in India and abroad to enable business expansion and information dissemination on technical developments. With greater liberalization, ELCINA's focus has shifted to professional and value-added services to the Electronics Community.

- While ELCINA's focus was originally on promotion of manufacturing components - the building blocks of the industry, ELCINA, now renamed as Electronic Industries Association of India, has widened its horizons and broadened its activities to include the development of entire Electronics and IT Hardware.
- Our focus is to support the value chain for all key sectors including, Consumer Electronics, Telecom, Computers / IT, Defence and Aerospace, Industrial Electronics, Security, Medical, Automotive, Lighting and upcoming segments such as IoT and Industry 4.0 where the use of electronics is expanding.
- ELCINA correlates the common interest of these sectors with that of electronic components, electronic manufacturing services, equipment, material and machinery producers for expansion of manufacturing. R&D and Innovation to create IP and Skill Development to enhance our capabilities are indispensable to achieve leadership for our industry where we engage actively.

ELCINA believes that the Government and the industry need to work together to stimulate manufacturing and catalyse an IT/Electronics boom that can contribute significantly to the development of India.

ELCINA persistently works to facilitate changes that would strengthen India's electronics and IT manufacturing base to make it a leader on the world electronics map.

Services & Activities:

ELCINA constantly endeavors to upgrade services which include, among others:

- Active industry-government interface and networking with key decision-making bodies.
- Swift dissemination of information/data, circulars and notifications using electronic media.
- Publications, Reports and Surveys to capture the latest in the electronics industry.
- Under the umbrella of ELCINA Centre for Knowledge Management, organize Training & Interactive Programs and Workshops.
- ELCINA has co-promoted Electronics Sector Skills Council of India (ESSCI) with support from NSDC to develop & impart Skill Development programs throughout the country.
- Facilitating the establishment of Greenfield and Brownfield Clusters and investments supported under the National Electronics Policy.
- Advisory and Consultancy services on business viability, opportunities and market trends.
- Infrastructure support for business meets at ELCINA House with conference facility.
- Annual Awards for Excellence, and permanent Product Display Facility at ELCINA House.

3D Concept Analysis & Development India Pvt Ltd

Empowering Next-Gen Manufacturing

Advanced Industrial Automation & Turnkey Engineering Solutions

3DCAD
ENDLESS POSSIBILITIES

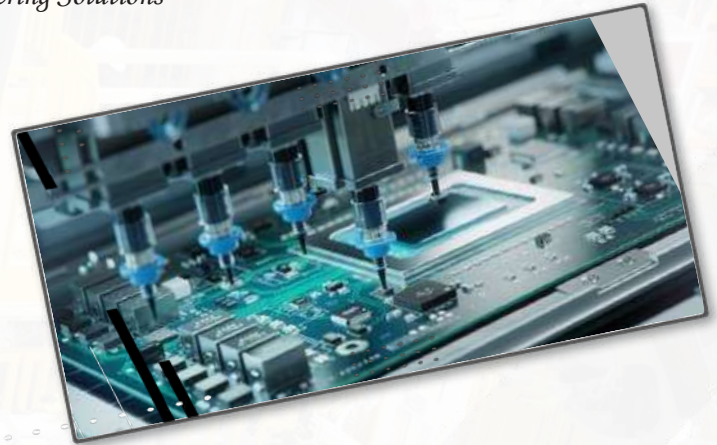

Precision. Performance. Productivity.

As a leader with **18+ years of expertise** in industrial automation and manufacturing engineering, 3DCAD delivers comprehensive solutions that transform production environments and elevate operational capability worldwide.

Turnkey Automation Solutions

Take your manufacturing processes to the next level with tailored automation systems designed to enhance efficiency, reliability and output. Our end-to-end solutions cover complete automation journeys – from conceptualization to execution.

- **Assembly Automation** – Custom automated assembly lines and precision joining solutions.
- **Handling & Material Transfer** – Intelligent bin picking, machine tending, conveyors, and integrated material flow systems.
- **Testing & Inspection** – Automated systems for robust quality checks and consistent product validation.
- **Vision & Welding Systems** – Vision-based inspection and advanced welding automation for high standards and repeatable quality.
- **Factory & Process Integration** – Intelligent line integration with PLC/SCADA control, robotic interfacing, and Industry 4.0-ready architecture.

Engineering & Value-Added Services

We provide deep technical support across manufacturing engineering disciplines, ensuring your projects succeed at every stage:

- **Manufacturing Engineering for Automotive, Aerospace & Heavy Industries**
- **New Product Development Support**
- **Application Development & Smart Software Solutions**
- **Joining & Precision Fabrication Technologies**

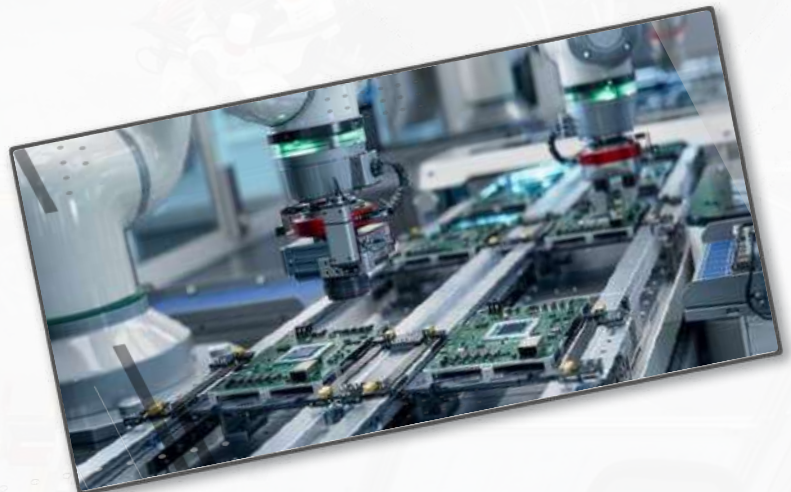

Each engagement is engineered to minimize risk, reduce cycle time, and ensure seamless integration with your existing systems.

Smart Products Division – Intelligent Tools for Smarter Manufacturing

Our suite of Smart Products complements automation systems, enhancing performance for specific production needs from advanced loaders to motion components and specialised fixture tables.

Industries We Serve

- Automotive & EV Manufacturing
- Electronics & Consumer Goods
- Healthcare & Medical Devices
- General Engineered Products
- Heavy & Specialty Machinery

We tailor solutions to the unique demands of each sector, focusing on **Quality, Throughput and Long-Term Operational Value.**

Partner With Confidence

3DCAD combines cutting-edge technology with real engineering rigor – no gimmicks, only results you can measure. From factory upgrades to full production line implementation, we help you build the future while optimizing cost, quality, and efficiency.

Our Motor and Motor Drive Units (MDUs) are
engineered for a wide range of automotive
applications, specifically optimized for 48V and 72V
systems. We offer models with capacities of 2kW
and 6kW, ideally suited for Two-wheelers, Three-
wheelers, Agri-equipment, and various off-road
vehicles.

Our Engine electronic Control Units (ECUs) are
tailored for a broad spectrum of automotive
applications, particularly for gasoline, CNG, and bi-
fuel systems, both Two-wheelers and Three-
wheelers applications.
